PLENARY

IMPROVING ACCESS TO INT'L WORKERS

INT'L WORKERS TABLE DISCUSSION AND PLENARY

1. Where are we going to find the farm operators and managers in the future?
2. If we don't find enough workers ,what are the consequences for the industry? Will the land lie fallow in some areas where workers are unavailable?
3. If Canadians only want high skilled positions and access to foreign workers continues to be constrained, what should be done?
